

# DOMINO 2001

**Domino 2001 Orlandi** proposes a new style of tourism.

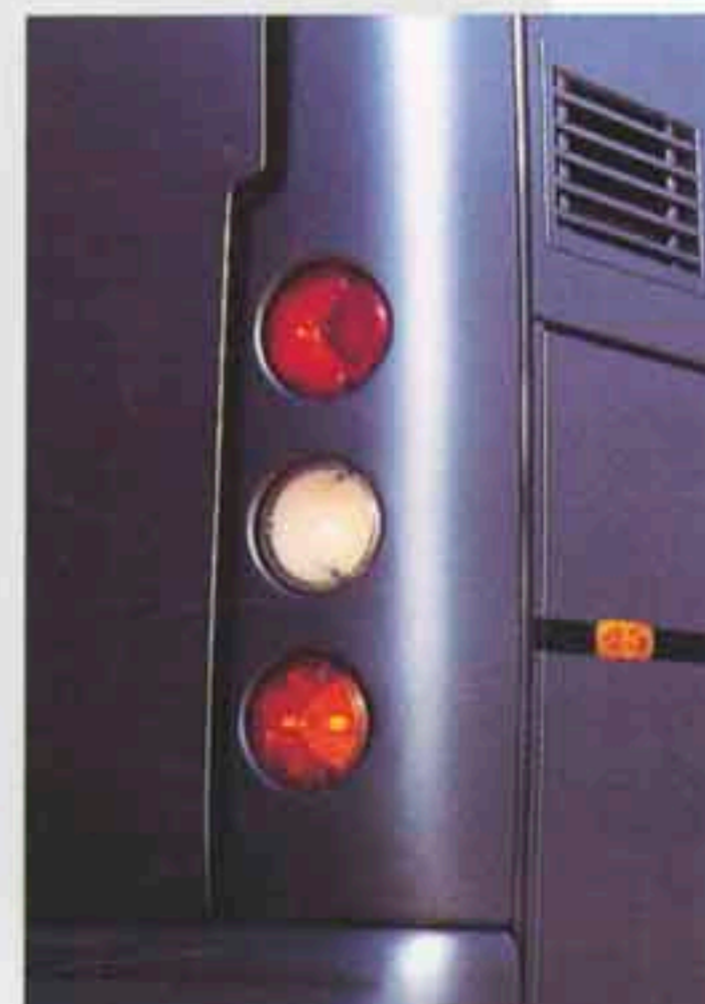

A style based on advanced comfort, performance and styling, without losing sight of operating costs and the rental company's bottom line.

The **Orlandi** style is evident in soft lines that are charming and modern yet "classical" at the same time, in the plush cabins finished in velour and alcantara, in the computerised climate control system and in the many accessories and amenities.

The mechanical system is based on the reliable EuroRider, with a 345 hp engine and an 8-speed mechanical transmission.

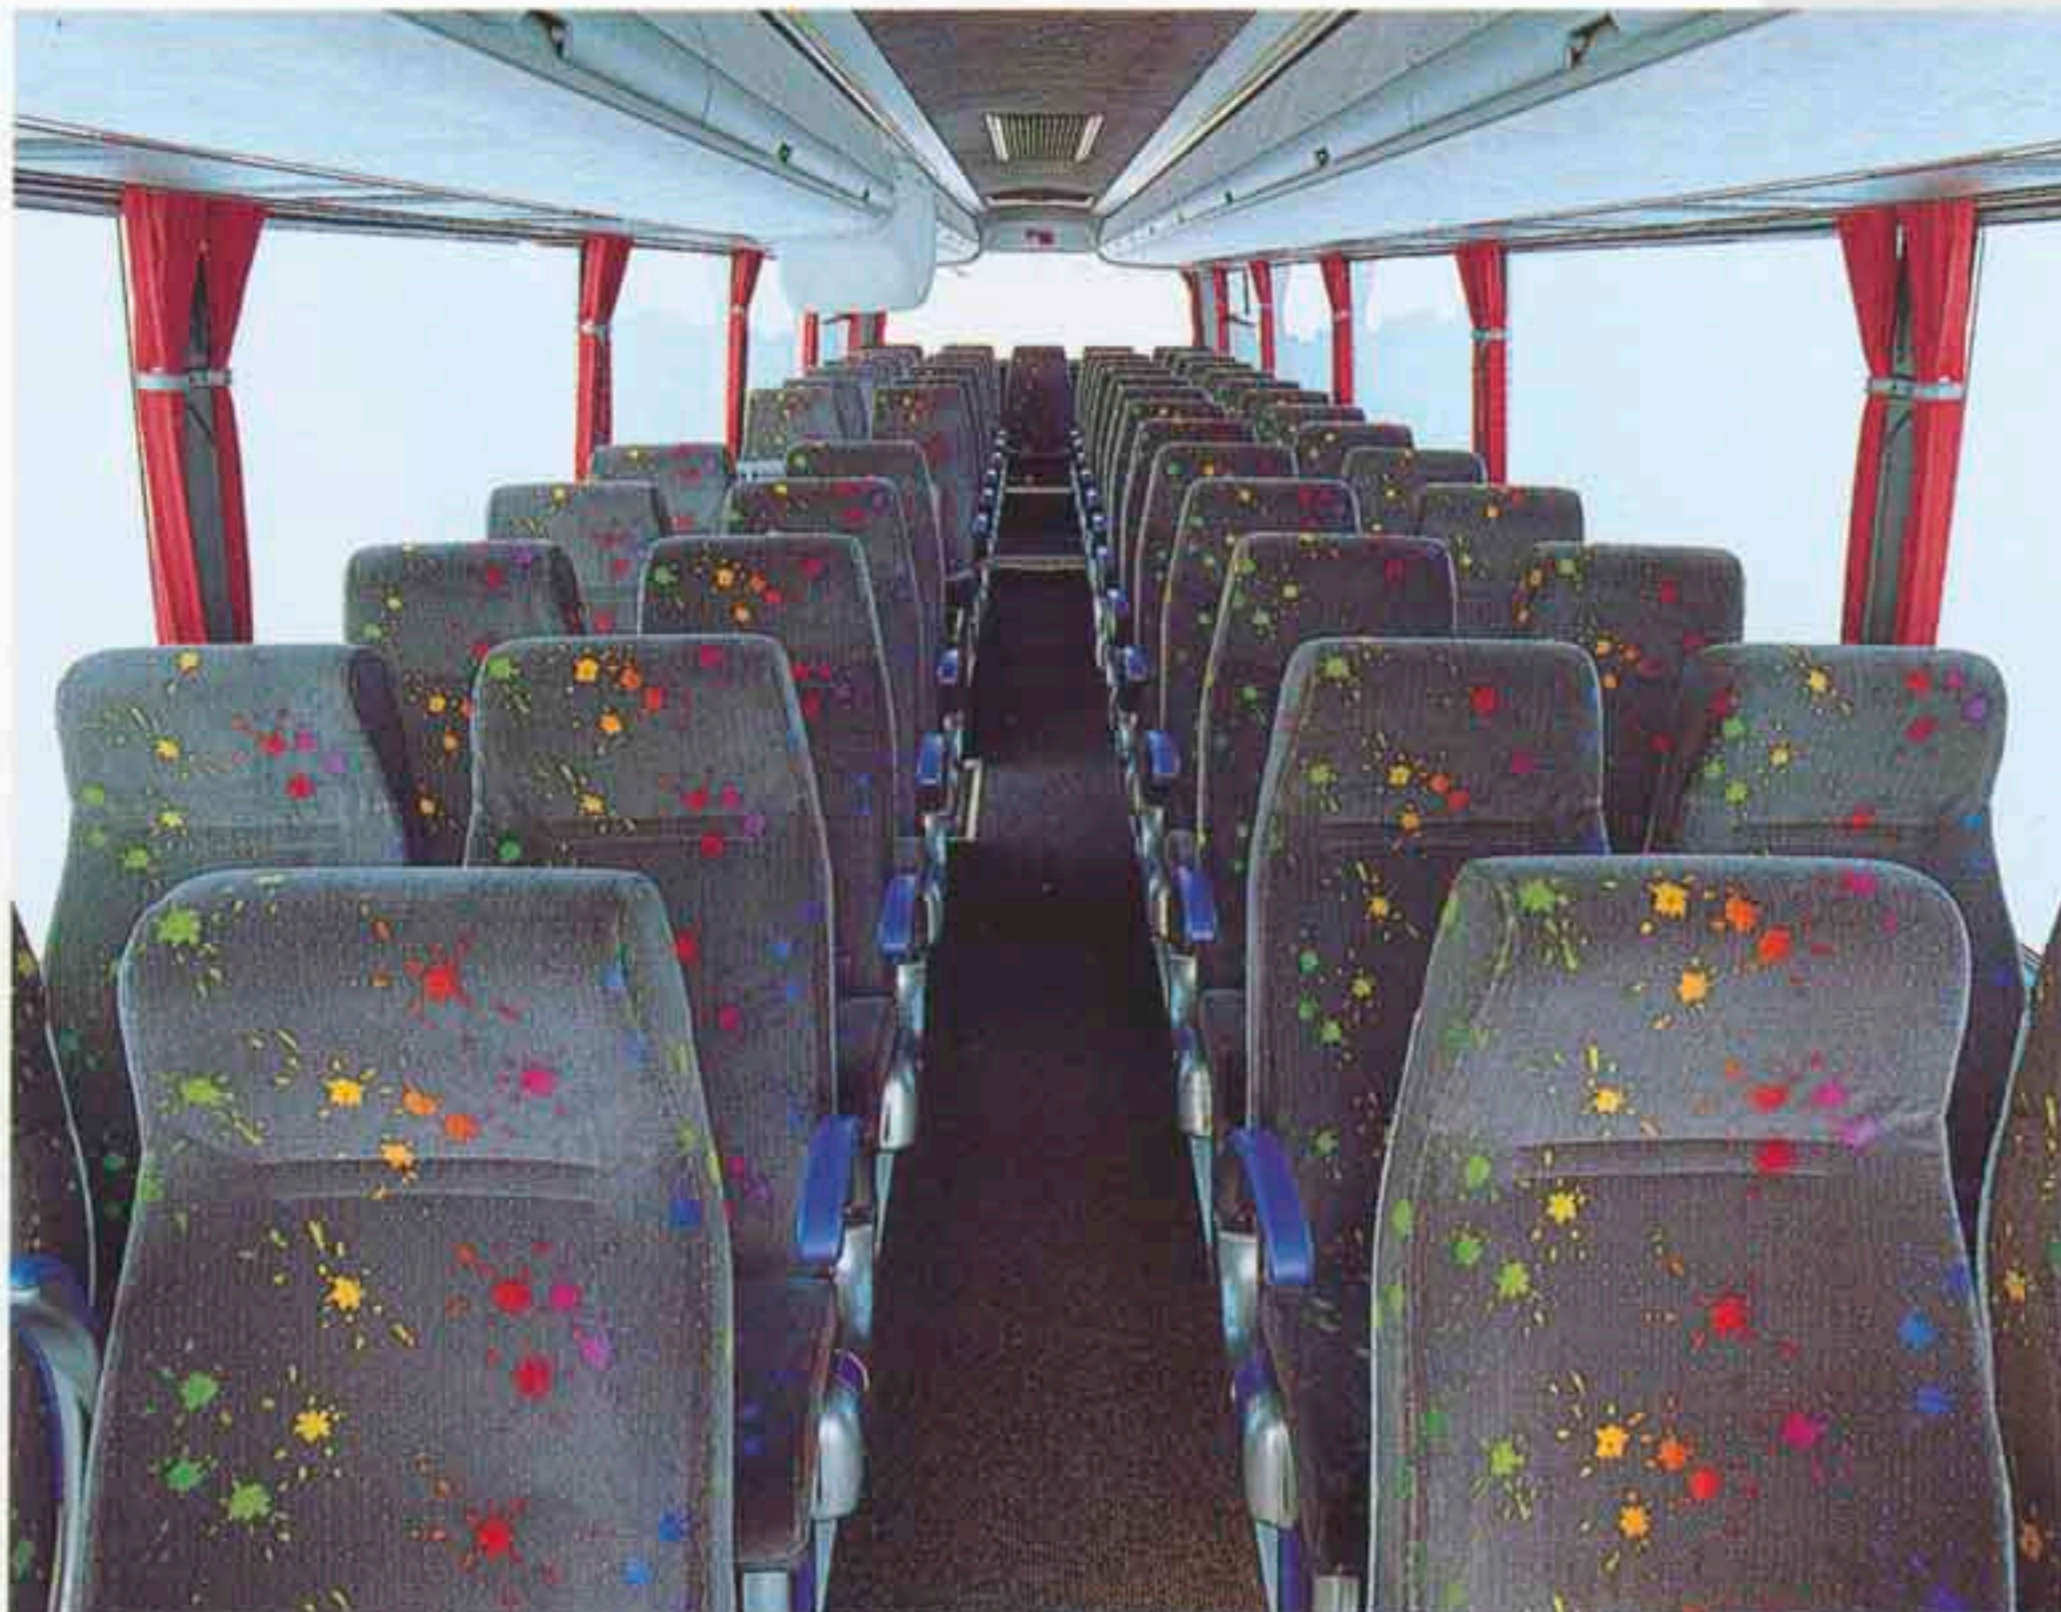

*Styling details reflect a very distinctive design with an exceptional Cd.*

**ORLANDI IVECO**

The vehicle's 2550-mm width provides a spacious and comfortable interior.

## TECHNICAL CHARACTERISTICS

Length (mm)	12000
Width (mm)	2550
Height (mm)	3650
Floor height (mm)	1350
Internal height (mm)	2030
